

Cost saving solutions for front & back machining

**Reduce
Cycle time!**

**No
interpolation!**

**Improve
Quality!**

**Process
Security!**

**Reduce
Man power!**

**Machine the
inaccessible areas!**

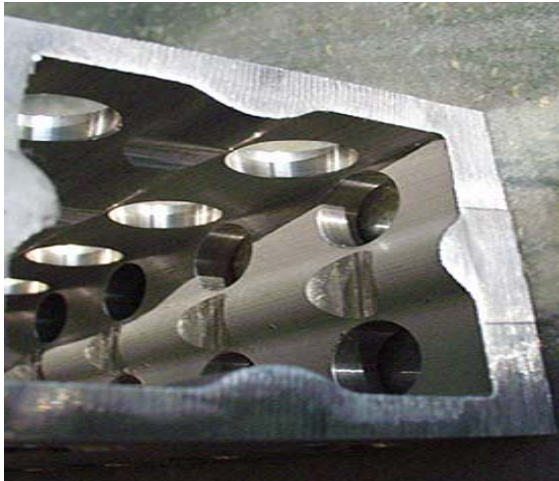

Chamfering

Deburring

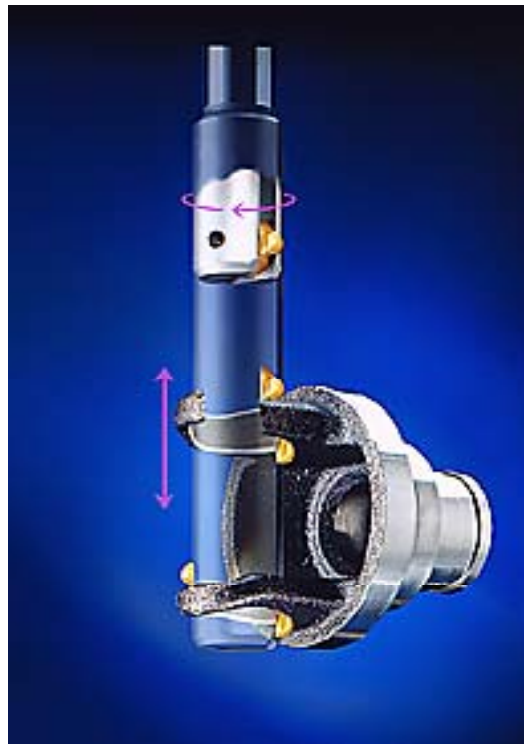

Spotfacing

Combination

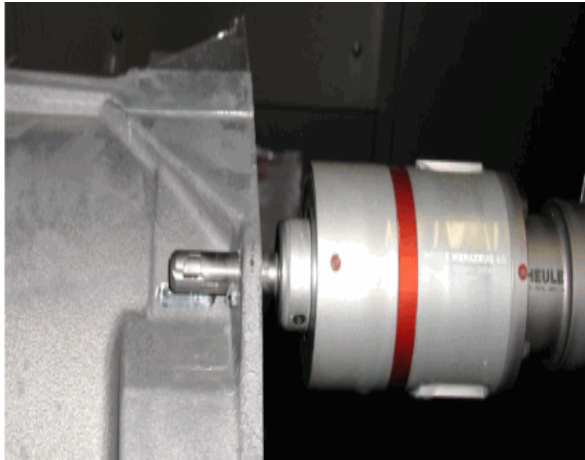

SNAP- Simple tool for chamfering forward & backward in one operation

COFA -Consistent deburring of even and uneven bore edges, forward and backward in a single work operation

SOLO - Automatic front and back spotfacing in a single work operation

For your success

- Reduce time
- Save costs
→ **profitable**
- Safe in process
- Flexible
